Course Description:
This course examines the relationship between technology and social change throughout history. From prehistoric stone tools to twenty-first century nanotechnology, the topics will focus on how technological developments both shape society both and are shaped by it. Regular attendance is necessary to do well, since lectures will cover material not presented in the textbook. Course materials such as lecture notes and image slides will NOT be posted on the Internet or shared with students who miss class. It is your responsibility to attend regularly, to take notes, and to arrange help from a classmate if you miss a class.

Course Objectives:
1.) To survey important technological innovations from prehistory to the 21st century.
2.) To examine how technology shapes social change, and how society shapes technological change.
3.) To introduce students to the discipline of history and to the practice of historical analysis and critical thinking.

Required Notes:  
“Policy about course outlines can be found in the “Evaluation Procedures and Grading System section of the University Calendar.”

Academic Integrity  
“The University of Alberta is committed to the highest standards of academic integrity and honesty. Students are expected to be familiar with these standards regarding academic honesty and to uphold the policies of the University in this respect. Students are particularly urged to familiarize themselves with the provisions of the Code of Student Behaviour (online at http://www.governance.ualberta.ca/en/CodesofConductandResidenceCommunityStandards/CodeofStudentBehaviour.aspx ) and avoid any behaviour that could potentially result in suspicions of cheating, plagiarism, misrepresentation of facts and/or participation in an offence. Academic dishonesty is a serious offence and can result in suspension or expulsion from the University.”

Learning and working environment  
The Faculty of Arts is committed to ensuring that all students, faculty and staff are able to work and study in an environment that is safe and free from discrimination and harassment. It does not tolerate behaviour that undermines that environment. The department urges anyone who feels that this policy is being violated to:

• Discuss the matter with the person whose behaviour is causing concern; or

• If that discussion is unsatisfactory, or there is concern that direct discussion is inappropriate or threatening, discuss it with the Chair of the Department.

For additional advice or assistance regarding this policy you may contact the Office of the Student Ombuds . Information about the University of Alberta Discrimination and Harassment Policy and Procedures is described in UAPPOL.

Academic Honesty:  
All students should consult the information provided by the Student Conduct & Accountability Office regarding avoiding cheating and plagiarism in particular and academic dishonesty in general (see the Academic Integrity Undergraduate Handbook and Information for Students). If in doubt about what is permitted in this class, ask the instructor.

Students involved in language courses and translation courses should be aware that on-line “translation engines” produce very dubious and unreliable “translations.” Students in language courses should be aware that, while seeking the advice of native or expert speakers is often helpful, excessive editorial and creative help in assignments is considered a form of “cheating” that violates the code of student conduct with dire consequences.

An instructor or coordinator who is convinced that a student has handed in work that he or she could not possibly reproduce without outside assistance is obliged, out of consideration of fairness to other
Recording of Lectures:
Audio or video recording of lectures, labs, seminars or any other teaching environment by students is allowed only with the prior written consent of the content author(s) or as a part of an approved accommodation plan. Recorded material is to be used solely for personal study, and is not to be used or distributed for any other purpose without prior written consent from the instructor.

Attendance, Absences, and Missed Grade Components:
Regular attendance is essential for optimal performance in any course. In cases of potentially excusable absences due to illness or domestic affliction, notify your instructor by e-mail within two days. Regarding absences that may be excusable and procedures for addressing course components missed as a result, consult the Calendar regarding Attendance and Examinations sections of the University Calendar. Be aware that unexcused absences will result in partial or total loss of the grade for the “attendance and participation” component(s) of a course, as well as for any assignments that are not handed-in or completed as a result.

Absences from midterm exam:
A student who cannot write the midterm due to incapacitating illness, severe domestic affliction or other compelling reasons can apply for an excused absence. Please note from the perspective of the Faculty of Arts, unacceptable justifications for a Deferred Exam include: minor illness (headache, cold, anxiety, stress), multiple exams on the same day, vacations, weddings or other travel. Likewise total loss or problems with computer are NOT recognized by the University of Alberta as a legitimate reason for missing essay/exam/presentation. If the absence is excused, the weight of the midterm exam will be transferred to the final exam weight. There will be NO makeup midterm exam. If the absence is not excused, the student will receive a mark of zero (0) for the midterm exam. To apply, please fill out and sign an Exam Absence Form (located on page 6 of the syllabus). Excused absence is a privilege and not a right; there is no guarantee that an excused absence will be granted. Misrepresentation of Facts to gain a deferral is a serious violation of the Code of Student Behaviour.

For specific details see the University of Alberta Calendar, Section 23.3 (1).
In summary:
1. Notify your instructor by e-mail within two days following the missed exam/presentation.
2. Fill out and sign an Exam Absence Form (located on page 6 of the syllabus)

Absences from final exam/deferred final:
Date: Deferred final exam will be held within 2 weeks of the scheduled final. Precise date, location and time will be assigned once all the applications for the deferred final are approved. See Section 23.5.6 of the University Calendar for details on deferring exams. Valid reasons for deferring an exam are: incapacitating illness; family emergencies; domestic affliction; religious convictions
If these factors apply, students can apply to defer final exam. The deferral process is as follows:

**The decision to grant a deferred final exam is NOT the instructor’s.** There is only one date for deferred final exams (deferred exam: must be held within 2 weeks of the scheduled final).

1. Complete application form (available at your Faculty office). This application must be supported by a University of Alberta Medical Statement form if the cause of the deferral is illness or other documentation explaining the absence. The application must be presented to the Faculty within **two working days** following the missed examination, or as soon as you are able due to the circumstances underlying your absence.
2. Have the application approved by the Dean or Delegate of your Faculty. Please note that your Faculty is **not obligated** to grant you a deferral. All deferrals are granted at the discretion of the Faculty.
3. Your Faculty **must** inform the History and Classics Department. The Department will then notify me and you will be provided with the date for the deferred exam.

Always check with your Faculty for any faculty-specific requirements.

**If you have any further questions, contact the Student Ombud Service for advice**
